Objective

Experienced Azure Cloud Engineer adept in architecting and managing Azure solutions. Skilled in optimizing performance and cost efficiency. Committed to continuous learning and driving innovation.

Experience

July 2022 – April 2023
Cloud Trainee • Atos - Pune

April 2023 - Current

Cloud Trainee • Eviden - Pune

- Managing and Monitoring Cloud Infrastructure of Customer
- Patching/Updating deployed resources.
- Suggesting recommendation as per Global updates, Microsoft Defender for cloud.
- Working on Azure Active Directory, Automation Account, Log Analytics workspace, etc.

As an Azure Cloud Engineer, I manage secure and scalable cloud infrastructures on Azure. Leveraging automation and networking expertise, I optimize performance and cost efficiency. My role involves monitoring for high availability and promptly resolving issues. Collaborating with teams, I contribute to successful cloud projects while staying updated with the latest Azure advancements.

Certification

- AZ 900 Microsoft Certified: Azure Fundamentals.
- AZ 104 Microsoft Certified: Azure Administrator Associate.
- Oracle Cloud Infrastructure Foundations Associate
